Curriculum Vitae

Nationality	German								
Date of birth	July 1, 1991								
Research Interests	My research focuses on algorithms in theoretical computer science. I am interested in combinatorial optimization, approximative and parameterized algorithms. Most of my work is connected to scheduling and (integer) linear programming.

Awards and Honors	<ul style="list-style-type: none"> ► I was admitted a scholarship by the Studienstiftung (German Academic Scholarship Foundation), a prestigious German organization that supports exceptionally talented students. ► I won the award for the best Ph.D. in the year 2019 by the “Förderverein der TF” of the University of Kiel. ► My Master’s degree was among the three best (by grade) within the graduating class. ► My Bachelor’s degree was the best (by grade). 								
Other Activities	I have been in the program committee of WAOA’20 and I am regularly peer-reviewing for various conferences and journals. I contributed a significant part to the successful DFG (German research foundation) project proposal “Entwicklung von Approximationsalgorithmen für Scheduling auf heterogenen Maschinen” by my Ph.D. advisor Klaus Jansen.
